---

Dear North Union Families,

It is my hope that your summer is going well and that our students are finding time to do some things they enjoy and spending time with their loved ones. As our administrative team is working hard to prepare for our students to return to school in the fall, we wanted to send some communication out to you to make you aware of a couple of important things and timely matters.

First and foremost, it is our district's priority to get students back in school under brick and mortar in the fall. As you all know, the information we receive in regards to Covid-19 is constantly changing based upon current data. Our school district will work to follow the guidance from our state and our local department of public health as we continue our planning and will plan accordingly for the health and safety of all students and staff. In late July or early August more details and communication will be released to our families so that you can prepare for fall and for our students' return to learning.

With that being said, we also understand that there may be students in our district who have underlying health conditions themselves or within their family that would make attending public school a very risky situation for this coming school year. Recently our state passed Senate File 2310 which allows a family to file for open enrollment to an approved Iowa online school for the 2020-2021 school year if the student or a family member has Covid related health concerns. You can find a copy of the open enrollment information and the form to file at the links below. The open enrollment deadline to an approved online school for Covid related reasons is July 15, 2020.

If you have questions about filing for this open enrollment, please don't hesitate to reach out to me.

Sincerely,

Travis Schueller, Superintendent
