I. Welcome to North Kossuth Early Childhood Center Preschool QPPS 10.1

Welcome Letter to Preschool Parents

Welcome to the North Kossuth Early Childhood Center Preschools! We appreciate your interest in our program. This handbook was prepared to serve as a reference to you. The program's goal is to provide a high quality preschool program meeting each child's needs, including children with disabilities and those from a diverse background. The preschool provides a rich learning environment that encourages children's natural curiosity and supports them to take risks that lead to new skill development. We encourage you to share your comments or concerns with us about our program.

II. Mission, Philosophy, and Goals for Children and Families QPPS 10.1

Mission:

The mission of the Preschool Program, a partnership of school staff, parents, and community, is to prepare students to be life-long learners who can become successful, productive future citizens, and compete anywhere in the world. This will be accomplished by recognizing the value of each individual and promoting academic and personal growth in a challenging and caring environment.

Preschool Philosophy of Education:

We believe:

- Student learning is the most important element of our society.
- Students learn best in a safe and caring environment.
- Innovative learning activities and various teaching strategies enhance learning.
- Respect for diversity develops tolerance within the school and our society.
- Effective learning produces life-long skills.
- Leaders never lose sight of best practice.
- Teaching the importance of citizenship benefits the school and the community.
- Productive discipline incorporates control, consistency, and care.
- Memorable and enjoyable activities foster learning.
- School, home and community cooperation facilitates and reinforces learning.

Goals for Children:

- Children will show competence in social/emotional, physical, cognitive, and language development skills.
- Children will be enthusiastic and curious learners.
- Children will be safe and healthy.

Goals for Families:

- Families will feel welcome in the classroom and school.
- Families will work with the school in a meaningful partnership to help their children be better prepared to learn to read and write.
- Families will advocate for their children.

III. Enrollment and Requirements

Equal Educational Opportunity

It is the policy of the North Kossuth Community School District not to discriminate in its education programs or educational activities on the basis of age, race, color, creed, national origin, religion, sex, marital status, sexual orientation, gender identity, socioeconomic status, or disability. Students are educated in programs, which foster knowledge of, and respect

and appreciation for, the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society. Students who feel they have been discriminated against are encouraged to report it to the school district Affirmative Action Coordinator who can be reached at (515) 889-2261. Inquiries may also be directed in writing to the Director of the region VII Office of Civil Rights, US Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, WI, 53203-2292, (414) 291-1111, or the Iowa Department of Education, Grimes State Office Building, Des Moines, IA 50319-0146, (515) 281-5294. Procedures and levels are outlined in district policy for resolving complaints and are available upon request from the curriculum director's office.

Eligibility

Children who will be four years old by Sept. 15 of the current year are eligible to attend a North Kossuth Preschool. Children may be enrolled at any time of the school year. We encourage you to visit the program with your child and visit with the director.

The Iowa Department of Public Health [IAC 641-7]. requires a yearly medical examination and current immunization records on file for every child enrolled in our program. Health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended by the Department of Public Health. All forms and the immunization card must be returned to the school by the child's first day of attendance. Please update the immunization card as necessary.

Hours QPPS 6.4

4 year olds attend	Monday, Wednesday & Friday:	8:20-3:05
3 year olds attend	Tuesday and Thursday:	8:20-11:30

General Admission Information QPPS 5.1, 9.9 & 10.4

The maximum class size is 20 children in each half-day session based on square footage of the current location. A teaching staff-child ratio of at least 1:10 will be maintained at all times to encourage adult-child interactions and promote activity among children. The elementary principal will maintain a current list of available substitutes for both the teacher and paraeducator. Should one of the teaching staff need to temporarily leave the room, the teacher will call the elementary office and the principal will arrange for coverage of the classroom to maintain the staff-child ratio.

Discharge Policies

If your child is not ready for a group experience, or if his/her needs are not best met in a group setting, we may need to schedule a conference in an attempt to correct the situation. Guidance From [Suspension and Expulsion Policies in Early Childhood Classrooms](#) will be followed in these situations.

Early childhood programs must protect children from harm but must also use alternatives to effectively support and respond to problem behaviors so that disciplinary removals such as expulsion and suspension are infrequent or unnecessary. Expulsion and suspension should only be used as a last resort when there is a serious safety concern that cannot be reduced or eliminated with reasonable modifications. All expulsions and suspensions shall be reported to the family so they have the opportunity to be heard before any expulsion or lengthy removal occurs.

Support Plan

- Student behavioral needs are considered and a support plan is put in place with the IEP team
- Appropriate restrictive placement is part of the support plan for all students
- The support plan is reviewed with the preschool staff quarterly
- Preventative strategies (PBIS) and de escalation strategies are implemented for all students
- Yearly training for staff on preventative and de escalation strategies
- Staff and administration will review prevention policies and procedures to ensure that exclusionary discipline is appropriate and equitable.
- Communication with parents upon a child's return to school through an in-person meeting to review and update that plan

Inclusion QPPS 9.10

The Early Childhood Special Education (ECSE) program serves all children, including those with disabilities and unique learning needs. Modifications are made in the environment and staffing patterns in order to include children with special needs. Staff is aware of the identified needs of individual children and is trained to follow through on specific intervention plans. It is our belief that inclusion in our program will enrich the experience for teachers, students, all children and their families.

IV. A Child's Day

Who Works in the Preschool

Program Administrator QPPS 10.2

The elementary principal is designated as the program administrator supervising the preschool program. The principal meets all qualifications described in the Iowa Quality Preschool Program Standards.

Teacher QPPS 5.2 & 6.2

All teachers must hold a license issued by the Iowa Board of Educational Examiners and must have an early childhood endorsement that reflects their current teaching assignment. Each teacher in the program will hold a certificate of satisfactory completion of pediatric first-aid training and satisfactory completion of pediatric CPR.

Paraeducator QPPS 5.2 & 6.3

A full time/part time paraeducator in the classroom carries out activities under the supervision of the teacher. The program paraeducator will have a high school diploma or GED and either be enrolled in a program leading to a Child Development Associate Credential (CDA) or have a CDA. Each paraeducator in the program will be highly qualified as determined by the district, will hold a certificate of satisfactory completion of pediatric first-aid training, and satisfactory completion of pediatric CPR.

Support Staff

Prairie Lakes AEA 8 support staff provides resources and assistance to the teacher and paraeducator(s) upon request and parent permission to help all children be successful in the preschool setting. Such staff may include: Early Childhood Consultant, Speech and Language Pathologist, School Psychologist, Occupational Therapist, Physical Therapist or others.

Daily Activities QPPS 1.1, 1.5, 2.3, 2.5, 2.6, 2.8, 2.9, 2.10, 2.11, 2.12, 2.13, 2.14, 2.15, 2.21, 2.26, & 2.28

A consistent daily schedule is planned to offer a balance of learning activities. Learning is both formal and informal. Play is planned for every day. Listening is balanced with talking, group activities with solitary time, indoors with outdoors, quiet play with noisy play. Your child will have the opportunity for the following types of activities every day:

- Large and Small Group Activities
- Self-Directed Play
- Snack
- Story Time
- Computers
- Outdoor Activities
- Individual Activities
- Learning Centers: Art, Science, Writing, Games, Put-together toys, Books, Blocks, Pretend Play

Curriculum QPPS 1.7, 2.1 through 2.30, 3.1, 3.3, 3.4, 3.9, 3.10, 3.11, 3.12, 3.13, 3.14, 3.15, 3.16, 3.17, & 3.18, 7.1, 7.2 & 9.4

Curriculum is a framework for learning opportunities and experiences. It is a process by which learners obtain knowledge and understanding, while developing life skills. It is continually revised and evaluated to make learning fun and exciting.

It is the policy of this district that the curriculum content and instructional materials utilized reflect the cultural and racial diversity present in the United States and the variety of careers, roles, and lifestyles open to women as well as men in our society. One of the objectives of the total curriculum and teaching strategies is to reduce stereotyping and to eliminate bias on the basis of sex, race, ethnic origin, religion, and physical disability. The curriculum should foster respect and appreciation for the cultural diversity found in our country and an awareness of the rights, duties, and responsibilities of each individual as a member of a multicultural nonsexist society. Teaching staff will support the development and maintenance of children's home language whenever possible.

The preschool program uses **Creative Curriculum**, a research and evidence based comprehensive curriculum designed for Early Childhood. It addresses all areas of early learning: language and literacy, math, science, physical skills, and social skills. It provides children an opportunity to learn in a variety of ways - through play, problem solving, movement, art, music, drawing and writing, listening, and storytelling. Suggestions for modifications and adaptations are an integral part of the curriculum.

Child Assessment

Guiding principles: QPPS 4.1 through 4.8, 7.6

It is the school district's belief that assessment of young children is on-going and should be purposeful, developmentally appropriate, and take place in the natural setting by familiar adults. The results will be used for planning experiences for the children and to guide instruction. A family's culture and a child's experiences outside the school setting are recognized as being an important piece of the child's growth and development. All assessment results will be kept confidential and formal assessment results will be placed in each child's file, and stored in a secure filing cabinet.

Children are assessed for the following reasons:

- Creative Curriculum Profiles align with the Iowa Early Learning Standards. Profiles record student progress in all developmental areas throughout the year.
- Observational data provides an ongoing anecdotal record of each child's progress during daily activities.
- Child portfolios are organized by the teaching staff and include the assessments, observational data, and child work samples collected on an ongoing basis.
- Families are asked to contribute information about their child's progress. Young children often show different skills in different settings. Working together, the teaching staff and families can gather a complete picture of a child's growth and development.

The information is used in the following ways:

- To provide information about children's needs, interests, and abilities in order to plan developmentally appropriate experiences for them;
- To provide information to parents about their children's developmental milestones;
- To indicate possible areas that require additional assessment. QPPS 7.3, 7.5

Assessment Communication Plan QPPS 4.9, 7.3, 7.5, 7.6, 7.7

Assessment information will be shared formally with families during Parent Teacher Conferences in the fall and spring. In addition, the Creative Curriculum Progress Report will be sent home at conferences. The preschool teacher will have ongoing communication throughout the year. Informal conferences are always welcome and can be requested at any time.

If, through observation or information on the Creative Curriculum Progress Report, the teacher feels that there is a possible issue related to a developmental delay or other special need, she/he will communicate this to the family during a conference, sharing documentation of the concern. Suggestions for next steps may include the following, with the knowledge and consent of the parents:

The teacher requests assistance from the AEA early childhood staff as an early intervention process. This team engages in problem identification, plan interventions, provide support, and make outside resources available to

those individuals requesting assistance. The preschool teacher would assist in arranging for developmental screening and referral for diagnostic assessment when indicated. QPPS 7.4

If it is determined that a child needs special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include sign language and visuals for children with hearing impairments or language delays and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Accommodations QPPS 4.7, 7.5

If a child is determined to need special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include sign language and visuals for children with hearing impairments or language delays and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Program Assessment QPPS 7.5, 7.6, 7.7, 8.1, 8.2, 10.15

North Kossuth Community Preschools implements the Iowa Quality Preschool Program Standards. A Preschool Desk Audit - Evidence of IQPPS Implementation was completed during the school year to confirm we are meeting the standards. Administrators, families, staff, and other routinely participating adults will be involved annually in a program evaluation that measures progress toward the program's goals and objectives. The annual evaluation process includes gathering evidence on all areas of program functioning, including policies and procedures, program quality, children's progress and learning, family involvement and satisfaction, and community awareness and satisfaction. The annual evaluation findings are shared with staff and appropriate advisory and governance boards. The program uses this information to plan professional development and program quality-improvement activities as well as to improve operations and policies

Supervision Policy QPPS 3.7, 5.18, 5.19, 9.2, 9.6, 9.8, 9.11, 9.12

Before children arrive at school, the preschool teacher will complete the following daily safety checklist indoor and outdoor:

- All safety plugs and electric outlets covered, heat/AC, water temperature, and toilets, etc. in working order.
- All cleaning supplies/poisons out of children reach and are stored properly.
- Classroom and materials checked for cleanliness/broken parts, etc. including playground.
- Supplies checked - first aid kit, latex gloves, soap, paper towels, etc.
- Daily monitoring of the environment - spills, sand, etc. Other serious problems reported to custodian.
- Upon arrival, each child is observed by the teacher for signs of illness or injury that could affect the child's ability to participate in the daily activities.

The primary purpose for "supervision" is to keep all children safe. No child will be left unsupervised while attending preschool. Staff will supervise primarily by sight. Supervision for short intervals by sound is permissible as long as teachers check every two to three minutes on children who are out-of-sight (e.g. those who can use the toilet independently, who are in a center, etc.)

Challenging Behavior QPPS 1.2, 1.8, 1.9, 3.2, 3.6, 3.8

The teaching staff in the preschool is highly trained, responsive, respectful, and purposeful. The teachers anticipate and take steps to prevent potential challenging behaviors. They evaluate and change their responses based on individual needs. When children have challenging behaviors, teachers promote pro-social behavior by:

- interacting in a respectful manner with all children
- modeling turn taking and sharing as well as caring behaviors
- helping children negotiate their interactions with one another and with shared materials
- engaging children in the care of their classroom and ensuring that each child has an opportunity to contribute to the group
- encouraging children to listen to one another and helping them to provide comfort when others are sad or distressed

Teaching staff will guide children to develop self-control and orderly conduct in relationship to peers and adults. Children will be taught social, communication, and emotional regulation skills. If a child displays persistent, serious, and challenging behavior, the teaching staff, parents, and AEA support staff will work as a team to develop and implement an individualized plan that supports the child's inclusion and success.

Aggressive physical behavior toward staff or children is unacceptable. Teaching staff will intervene immediately when a child becomes physically aggressive to protect all children and to encourage more acceptable behavior

Possible Methods of Discipline QPPS 1.2, 1.3, 1.6, 1.8, 1.9, 3.2, 3.6,

For acts of aggression and fighting (biting, scratching, hitting) staff will set appropriate expectations for children and guide them in solving problems. This positive guidance will be the usual technique for managing children with challenging behaviors rather than punishing them for having problems they have not yet learned to solve. In addition, staff may:

(1) Separate the children involved; (2) Immediately comfort the individual who was injured; (3) Care for any injury suffered by the victim involved in the incident; (4) Notify parents or legal guardians of children involved in the incident; (5) Review the adequacy of the teaching staff supervision, appropriateness of program activities, and administrative corrective action if there is a recurrence.

Prohibited Practices The program does not, and will not, employ any of the following disciplinary procedures:

- Harsh or abusive tone of voice with the children nor make threats or derogatory remarks.
- Physical punishment, including spanking, hitting, shaking, or grabbing.
- Any punishment that would humiliate, frighten, or subject a child to neglect.
- Neither withhold nor threaten to withhold food as a form of discipline.

Water Activities QPPS 5.7, 9.14

We have a water table in the classroom for children to stand near and play with their hands in the water. During water play children are involved in active experiences with science and math concepts. Children with sores on their hands are not allowed to participate with others in the water table to ensure that no infectious diseases are spread. Children are not allowed to drink the water during water play activities. When the activity period is complete, the water table is drained and refilled with fresh water before a new group of children participate. Outdoor water play is limited to tubs and buckets or containers as well as the water table. We do not participate in swimming pool activities. Staff supervises all children by sight and sound in all areas with access to water in tubs, buckets, and water tables.

Snacks/Foods and Nutrition QPPS 2.27, 2.28 & 5.9-5.15 & 5.17

Attitudes about food develop early in life. The food children eat affects their well-being, their physical growth, their ability to learn, and their overall behavior. We have an opportunity to help children learn about foods, to enjoy a variety of foods from their own culture and others, and to help them begin to appreciate that their bodies need to be strong, flexible, and healthy. Eating moderately, eating a variety of foods, and eating in a relaxed atmosphere are healthy habits for young children to form.

Children attending the North Kossuth Preschool have the availability of breakfast and lunch served in the school cafeteria. A menu is posted in the classroom and available to families. All menus are kept on file for review by a program consultant. The NK Community School District nutritional program serves a wide variety of nutritional foods, and encourages children to expand their tastes by at least trying a portion of the food offered. Children will also have scheduled snacks.

All food is prepared, served, and stored in accordance with the U.S. Department of Agriculture Child and Adult Care Food Program (CACFP) guidelines. Clean, sanitary drinking water is made available to children throughout the day. Staff discards any foods with expired dates. Foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach. Foods requiring refrigeration will be kept cold until served.

For each child with special health care needs, food allergies, or special nutrition needs, the child's health care provider should provide the program with an individualized care plan prepared in consultation with family members and specialists involved in the child's care. Children with food allergies shall be protected from contact with the problem food. With family consent, the program posts information about the child's allergies in the food preparation area and in areas of the facility

the child uses to serve as a visual reminder to all adults who interact with the child during the day. Program staff will keep a daily record documenting the type and quantity of food a child consumes when any child with a disability has special feeding needs and provide parents with that information.

High-risk foods, often involved in choking incidents, will not be served. For children younger than four years, these include hotdogs, whole or sliced into rounds; whole grapes; nuts; popcorn; raw peas; hard pretzels; spoonfuls of peanut butter; chunks of raw carrots or meat larger than can be swallowed whole.

The school district will not withhold food or beverages as a punishment, nor will teaching staff ever threaten to withhold food as a form of discipline.

Outside Play and Learning QPPS 2.8, 2.9, 5.4, 9.1, 9.3, 9.5, 9.6, 9.7

We have daily opportunities for outdoor play as the weather permits. A variety of age and developmentally appropriate equipment and materials are provided to facilitate and promote enrichment in their learning process. Our designated outside play area is fenced in for safety. Our school uses a local weather website to determine if the "real feel" or heat index is safe for outdoor play. Students will play outside as long as the actual temperature (including "real feel") is above 0.

In order to make sure that your child can play comfortably outside it is important to dress the student according to the weather. When it is cold outside students need a warm coat, mittens or gloves and a hat (labeled with your child's name). For the warmer days dressing your child lightly is just as important. For those in-between days dressing your child in layers is a practical idea. There are areas on the playground for children to be in the shade and still be active. We encourage you to send a hat or other clothing for your child to wear as another protection from the sun. Sunscreen or sunblock with UVB and UVA protection of SPF 15 or higher will be applied to your child's exposed skin (only with your written parental permission to do so).

In cases when we cannot go outside (due to weather conditions) children are provided the same level of variety in materials and equipment to allow for enrichment and are supervised at the same level as outdoor equipment.

Clothing QPPS 1.7, 5.5

Your child will be learning through creative, active play that can sometimes be messy. Comfortable, washable, play clothes and rubber-soled shoes are best. Your child will be encouraged to handle their own dressing needs, so it is important to have items that are easy for your child to take on and off. We can't guarantee that spills or stains will not occur. Clothing should be free of words, graphics, or pictures that are profane, immoral, illegal, or disruptive in nature. All families are asked to provide an extra set of clothing for their child in case of an "accident" or messy play. Please clearly label the clothing with your child's name to reduce the possibility of mistakes.

Toilet Learning QPPS 5.5

Toilet learning is an important time in a child's development. For children who are unable to use the toilet consistently, the following procedures are in place:

Diapering will only be done in the designated diaper area, i.e., the classroom bathroom or in the nurse's office. Food handling will not be permitted in this diapering area.

1. Staff will follow all diapering guidelines set forth in the Iowa Quality Preschool Programs Standards and documentation will be kept on site and turned into the nurse's office monthly. **Standard 5, Criteria 7**
2. For children who are unable to use the toilet consistently, the program makes sure that:
 - Cloth diapers (and the outer covering) as well as clothing that are soiled by urine or feces are immediately placed in a plastic bag (without rinsing or avoidable handling) and sent home that day for laundering.
 - Staff checks children for signs that diapers or pull-ups are wet or contain feces at least every two hours and document this action. Diapers are changed when wet or soiled.
 - Staff change children's diapers or soiled underwear in the designated changing areas and not elsewhere in the facility
 - At all times, caregivers have a hand on the child if being changed on an elevated surface.

- In the changing area, staff post changing procedures and follow changing procedures.
- Containers that hold soiled diapers and diapering materials have a lid that opens and closes tightly using a hands-free device (e.g., a step can)
- Containers are kept closed and are not accessible to children.

3. Potty chairs will not be used due to the risk of spreading infectious diarrhea.

4. All families are asked to provide an extra set of clothing for their child in case of an “accident” or messy play. Please clearly label the clothing with your child’s name to reduce the possibility of mistakes.

Objects From Home

Because the preschool program provides ample toys and learning materials for your child, we ask that you limit toys brought from home. If your child brings an “attachment” item from home, we ask that it is small enough to fit inside his/her backpack or cubby. Please do not allow children to bring gum, candy, or money. Toys that promote violence or are associated with violence are not permitted at any time. The program cannot be responsible for lost or broken toys brought from home

Classroom Animals and Pets

If you, as a parent or legal guardian, want to bring your family pet to share with your child’s classroom you are welcome. The animal would appear to be in good health and have documentation from a veterinarian or an animal shelter to show that the animal is fully immunized (if the animal should be so protected) and suitable for contact with children. The teacher would ensure staff and children practice good hygiene and hand washing when coming into contact with the animal and after coming into contact with the animal. Teaching staff supervise all interactions between children and animals and instruct children on safe behavior when in close proximity to animals.

Any children allergic to the pet will not be exposed to the animal. Reptiles are not allowed because of the risk for salmonella. The classroom teacher is responsible for checking requirements have been met

Weapon Policy

No student shall carry, have in his or her possession, store, keep, leave, place or put into the possession of another student any real weapon or a look-alike weapon on any school premises, in any school vehicle or any vehicle used by the school or for school purposes, in any school building or other buildings or premises used for school functions, whether or not any person is endangered by such actions. “Look-alike weapon” means any item that resembles or appears to be a weapon (gun, squirt guns, water rifles or pistols, slingshots, toy guns, toy grenades and other similar items, knives, etc.).

Birthdays and Holiday Celebrations QPPS 5.10

Birthdays and holidays are an important and significant event in the life of a child. They afford the opportunity for children and dates to be given special recognition. Accordingly, students who wish to bring treats for the class on their birthday or holiday celebration may do so. Food that comes from home for sharing among the children must be either whole fruits or commercially prepared packaged foods in factory-sealed containers. The teacher will provide families a list of foods meeting the USDA’s Child and Adult Care Food Program guidelines. Those who have summer birthdays are welcome to choose their half birthday to celebrate with their class. If you would like to send a treat for a birthday snack or a holiday party, please let the teacher know ahead of time.

Please do not ask to distribute birthday party invitations at school unless the entire class is invited. This will eliminate hurt feelings.

V. Communication with Families QPPS 1.1, 7.4, 7.5

The program will promote communication between families and staff by using written notes as well as informal conversations or e-mail. Families are encouraged to send written notes with important information so all the staff who

work with the child can share the parent's communication. Teaching staff will write notes for families no less than weekly. Staff will use these notes to inform families about the child's experiences, accomplishments, behavior, and other issues that affect the child's development and well-being. Parents are encouraged to maintain regular, on-going, two-way communication with the teaching staff in a manner that best meets their needs - email, in person, notes, or phone calls.

Open Door Policy

Parents and legal guardians are always welcome to visit the preschool classroom. As a safety feature, all parents and visitors will check in at the school office. Visitors are asked to please use discretion with regard to bringing babies and toddlers to school as young children may disrupt class sessions. Photo identification will be required for any unknown visitor to the classroom.

Arrival and Departure of Children QPPS 10.9, 10.11

All motor vehicle transportation provided by parents, legal guardians or others designated by parents or legal guardians will include the use of age-appropriate and size-appropriate seat restraints.

When bringing your child to school, we ask that you park your car in the parking lot and turn off the engine before entering the building. Please hold your child's hand as you enter the building to decrease the possibility of an accident. Parents or legal guardians must either accompany children to the classroom at the beginning of the day or leave their child in the care of one of the teaching staff. No child will be permitted to leave the building without an adult.

Other than parents or legal guardians, only persons with prior written authorization (Parent Consent Form) will be allowed to pick up a child from the school. Anyone who is unfamiliar to teaching staff, including authorized individuals, will be asked to present photo identification before a child is released to them.

In the interest of students' safety, parents/guardians/authorized individuals are requested to report directly to the office when picking up their child rather than going to the child's classroom. Likewise, when a student returns to the building following an absence during the school day, the adult should stop in the office and sign the child in. When picking up your child from the school, please come early enough to enjoy watching what your child is doing during that time of the day.

If your child rides the school bus to school, teaching staff will go to each bus as it arrives to greet and assist the student off the bus. At dismissal, teaching staff will accompany each student to the bus and assist the student onto the bus.

When all children have arrived, teaching staff will walk the children to the classroom where the preschool teacher will record attendance for the day. Throughout the day each time children transition from one location to another (i.e. classroom to outdoors) the teacher will be responsible for counting the number of children whenever leaving one area and when arriving at another to confirm the safe whereabouts of every child at all times.

Transportation QPPS 10.9

The North Kossuth Community School District will provide school bus transportation for preschoolers. Parents or legal guardians may request transportation at enrollment, indicating the pick up and drop off address, the name of the responsible person at that address, and emergency contact information for all parties involved. Parents or legal guardians are asked to keep their information current by reporting changes to the preschool teacher or the school secretary. All information will be updated at least quarterly by teaching staff.

For children who have special needs for transportation, the facility will use a plan based on a functional assessment of the child's needs related to transportation that is filled out by the child's physician. This plan will address special equipment, staffing and care in the vehicle during transport. Any accommodations indicated in the child's Individualized Educational Program will be implemented as described.

It is the parent's responsibility to pick their child up if in 3yr old class.

Field Trips

An important learning opportunity can take place in the form of a field trip that is relevant and reinforces what has been taught in the classroom. The North Kossuth Community School District school buses are used for these field trips. Parents will be informed of each field trip through a newsletter and signs posted in the classroom well in advance. A parent or legal guardian must sign an informed consent form for trips for each child before each trip. Adult family members are asked to volunteer to go on these trips to provide increased supervision and adult/child ratios. A notice posting the dates, time of departure, time of return, and the destination location will be posted prominently at least 48 hours before the field trip. Each child will be assigned to an adult for every part of the trip. Before every trip, the teaching staff will instruct children and all adults using the bus about the 10-foot danger zone around the vehicle where the driver cannot see.

During the field trip, all children will wear identifying information that, for children, gives the program name and phone number. A first aid kit, emergency contact information, and emergency transport authorization information for the children in the group will be taken on all trips. Children will be counted every 15 minutes while on a field trip. Children may only use a public restroom if they are accompanied by a staff member. Children will never be left alone in a vehicle or unsupervised by an adult.

Attendance

Students who are enrolled for classes in the North Kossuth Preschool are expected to be in school for the full session and are expected to be punctual in their arrival and departure. Students are not expected to be absent any more than is necessary for health reasons or appointments. Irregular attendance interferes with the progress of your child and others as teachers find themselves taking class time to repeat information and make adjustments for those students who have been absent.

Please call the school office with the reason for an absence no later than 8:30 A.M. For safety's sake, if a student is absent without notification, the school secretary/teaching staff will attempt to contact the family to verify the child's absence from school.

Ethics and Confidentiality

Staff follow an important code of ethics to guide their involvement with children and families. It is essential to protect the confidentiality of all information concerning children and their families. Maintaining a professional attitude includes being responsive to the needs of children and their families while balancing the need for confidentiality. Children are people who deserve respect. One way we demonstrate this respect is to refrain from talking about the children in their presence unless the child is part of the conversation and to refrain from labeling a child negatively or positively. No information about any particular child shall be shared with another child's parent. We continually strive to model such qualities as patience, tolerance, cooperation, acceptance, understanding of others, and enthusiasm for children as well as for other adults.

All teaching staff will receive training on ethics and confidentiality on the National Association for the Education of Young Children's Code of Ethical Conduct as part of their orientation. Each staff person will sign a Statement of Commitment to document their willingness to hold close the values and moral obligations of the field of early childhood education.

Children's Records

Student records containing personally identifiable information, except for directory information, are confidential. Only persons, including employees, who have a legitimate educational interest, are allowed to access a student's records without the parent's permission. Parents may access, request amendments to, and copy their child's records during regular office hours. Parents may also file a complaint with the United States Department of Education if they feel their rights regarding their child's records have been violated. For a complete copy of the school district's policy on student records or the procedure for filing a complaint, contact the board secretary in the school office.

Parents or guardians will be asked to sign a release of information form should they or the school request information be shared with another agency, stating to whom the information is to be released, the reason or purpose for the release of information, when it expires, and ways the parents can withdraw permission if they choose to do so.

Preschool Advisory Committee QPPS 7.2

The North Kossuth Preschool has a preschool advisory committee composed of parents, school staff, and other community members interested in the preschool program. This group meets quarterly to provide feedback on services

that meet children and family needs. They also serve as a sounding board for new ideas and services. Please let the preschool teacher know if you are interested in being part of the Preschool Advisory Committee.

Grievance Policy QPPS 7.5

Open and honest communication between families and the preschool program is an essential component of a high quality early childhood program. We want you to be confident that your child is being well cared for and is having a quality experience. If there is ever a time you have a concern regarding your child, we want to encourage you to address your concern to your child's teacher. If additional help is needed, either party may ask for the assistance from the superintendent.

If you have a concern regarding some aspect of the program or policy, please contact the superintendent who is the program administrator for the preschool.

As part of our program assessment, in the spring of each year, we also provide you with a family questionnaire to evaluate our program. This information helps us to assess how the program is meeting the needs of families and children, as well as to identify strengths and weaknesses.

VI. Family Involvement QPPS: 7.1, 7.2
--

The North Kossuth Preschool encourages families to be very involved in their child's education by observing their children during the day when possible and meeting with staff. Family members are welcome to visit at any time during class sessions.

Teachers and administrators use a variety of formal and informal ways to become acquainted with and learn from families about their family structure and their preferred means of child-rearing practices and communication; and information about their socioeconomic, linguistic, racial, religious, and cultural backgrounds as they wish to share. Families are surveyed in enrollment paperwork and through other questionnaires during the year regarding their family, beliefs, and preferences. Home visits are conducted at the beginning of the school year. Program staff communicate with families on at least a weekly basis regarding children's activities and developmental milestones, shared care-giving issues, and other information that affects the well-being of their children. Family teacher conferences are held in both the fall and spring semesters, as well as when either party requests. At least one Family Night is held during the year. The

North Kossuth Preschool values the time spent talking and interacting with families and developing strong, reciprocal relationships. As the teacher learns from the families' expertise regarding their child's interests, approaches to learning, and developmental needs, goals for your child's growth and development can be incorporated into ongoing classroom planning. Families are encouraged to share any concerns, preferences or questions with the preschool teacher or administration at any time.

Although in-person daily contact cannot be replaced, preschool staff also rely on notes home, emails, phone calls, newsletters, and bulletin boards as alternative means to establish and maintain open, two-way communication.

The North Kossuth Preschool invites you to become involved in one or all of the following ways, and welcomes other ideas as well.

1. Support your child's daily transition to school by sharing information about your child's interests and abilities. Keeping the teacher informed of changes and events that might affect your child allows the teacher to be more responsive to your child's needs.
2. Attend family meetings.
3. Return all forms, questionnaires and so on promptly.
4. Attend Family/Teacher conferences in the Fall and Spring semesters.
5. Take time to read the family bulletin board.
6. Check your child's backpack each day.

7. Participate in field trip activities.
8. Share some of your talents in your child's class through activities such as: reading or storytelling, cooking, art, music, sewing, crafts, hobbies, your profession, or artifacts from trips you have taken.
9. Share any of your families' cultural traditions, celebrations, or customs.
10. Help prepare snack and enjoy it with your child.
11. Read all the material sent home with your child.
12. Come to play.
13. Help with special events. Helping takes many different forms such as preparation of materials at home, making telephone calls, preparing or posting flyers, recruiting other volunteers, collecting donations or prizes, run errands, photography, setup before the event, or clean afterwards.
14. Serve on the Preschool Advisory Committee.
15. Add to the monthly newsletter or organize it.

It is the policy of the North Kossuth Community School District not to discriminate on the basis of age, race, color, creed, national origin, religion, sex, marital status, sexual orientation, gender identity or disability in its education programs, activities, or employment policies as required by Title VI or VIII of the 1964 Civil Rights Act, Title IX of the 1972 Education Amendments, and the Federal Rehabilitation Act of 1973.

The school district will, to the extent possible, provide full opportunities for meaningful participation of the families with children with limited English proficiency, families with children with disabilities, including providing information and school reports in an understandable and uniform format and, including alternative formats on request, and, to the extent possible, in a language families understand. The school district believes that families should be supported in making decisions about services that their children may need. The teaching staff will provide information to families about available community resources and assist as requested in helping the family make connections.

4 Year Old Home Visits

Home visits are made prior to the start of school. This is an opportunity for the preschool teacher to get to know you, your child, and your family and for you to begin to create a partnership between home and school in order to best meet your child's needs. This is a great time for you to share what makes your family unique, how you prefer to communicate with the teacher, and share your knowledge about your child's interests, approaches to learning, and developmental needs. You can help the teacher understand what your goals are for your child and whether you have any concerns you'd like addressed. Parents are encouraged to share these preferences, concerns, and questions at any time with either the classroom teacher or administrator.

Family Teacher Conferences

The preschool program will have formal family teacher conferences at the same time as the elementary and middle school in the fall and spring. The teacher will send home a sheet before the conference asking you to consider what new skills you see your child developing at home or in the community, to think about what you'd like more information about the classroom, and whether you have new or different goals for your child. During the conference the teacher will share results of classroom assessments and samples of your child's work. Together you can make a plan to continue to encourage your child's growth and development.

Transitions QPPS 7.7

Home-school connections are crucial to the transition to kindergarten or any other program, such as special education. The child's family provides the consistency and continuity necessary for a young child to be successful. Making a change from one program to another can sometimes be difficult for a young child whether the transition is within the same building or in another location. Teaching staff will partner with the family to make the transition as smooth as possible by connecting family members with the next program's staff. The preschool program staff along with the North Union - Swea City Elementary Kindergarten teachers build cooperative Experience Kindergarten Events for each 4 year old preschool classroom. All students who will be 5 by September 15th of the current year, are eligible to attend these events.

Kindergarten Experience - A kindergarten parent information night is held in the spring of each year. Staff will provide information about enrollment policies and procedures, program options and a classroom visit.

Meet and Greet - During August, North Union Elementary Swea City kindergarten teachers will conduct a Meet and Greet/Curriculum Presentation for parents. At that time, you will learn about the procedures and expectations that will apply specifically in your child's Kindergarten class. Additionally, you will learn about the Kindergarten curriculum, activities and "traditions" that will occupy your child's life for several hours each day. If you still have a question after the Meet and Greet event, please call your child's teacher. She is your partner for this most important year. Together, we all can make a positive difference in your child's life!

Experiencing Kindergarten - The preschool students visit the kindergarten room to experience the classroom and teacher as a time to interact throughout the year.

VII. Health and Safety

The North Kossuth Preschool is committed to promoting wellness and to safeguard the health and safety of children and adults who participate in our program. In order to provide a safe and secure environment for every child and adult, we follow guidelines required by the Quality Preschool Program Standards, regulatory agencies and pediatric authorities in the field.

Health and Immunization Certificates QPPS 5.1

All preschool children must submit documentation of proper immunization prior to enrolling in preschool. As per Iowa State Department of Health, children must have received the following vaccinations. All children must have their immunizations up to date and cards turned in before starting school. Religious exemption is available if necessary.

- ☐ 4 Vaccines of DtaP or DTP
- ☐ 3 Vaccines of Polio
- ☐ 1 Vaccine of MMR (measles, mumps, rubella)
- ☐ 3 Vaccines of Hib or 1 after 15 months of age
- ☐ 3 Vaccines of Hepatitis B (not required for at preschool, but required at the Kindergarten level.) 1 Chicken Pox (varicella)
- ☐ 4 Prevnar

When a child is overdue for any routine health services, parents, legal guardians, or both provide evidence of an appointment for those services before the child's entry into the program and as a condition of remaining enrolled in the program, except for immunization for which parents are using religious exemptions.

Dental Exam

All enrolled preschool children are encouraged to have a dental examination to ensure proper dental health. Students entering kindergarten are now required to have a dental exam prior to enrollment. Tooth-brushing is not required if the only food provided is a snack. However, staff may provide tooth-brushing instruction as part of the health instruction.

Health and Safety Records

Health and safety information collected from families will be maintained on file for each child in the school nurse's office. Files are kept current by updating as needed, but at least quarterly. The content of the file is confidential, but is immediately available to administrators or teaching staff who have consent from a parent or legal guardian for access to records; the child's parent or legal guardian; and regulatory authorities, upon request.

Child Health and Safety Records will include: QPPS 5.1

1. Current information about any health insurance coverage required for treatment in an emergency;
2. Results of health examination, showing up-to-date immunizations and screening tests with an indication of normal or abnormal results and any follow-up required for abnormal results;

3. Current emergency contact information for each child, that is kept up to date by a specified method during the year;
4. Names of individuals authorized by the family to have access to health information about the child;
5. Instructions for any of the child's special health needs such as allergies or chronic illness (e.g., asthma, hearing or vision impairments, feeding needs, neuromuscular conditions, urinary or other ongoing health problems, seizures, diabetes);
6. Individual emergency care plans for children with known medical or developmental problems or other conditions that might require special care in an emergency (allergy, asthma, seizures, orthopedic or sensory problems, and other chronic conditions; conditions that require regular medication or technology support; and
7. Supporting evidence for cases in which a child is under-immunized because of a medical condition (documented by a licensed health professional) or the family's beliefs. Staff implement a plan to exclude the child promptly if a vaccine-preventable disease to which children are susceptible occurs in the program.

General Health and Safety Guidelines

- All staff must be alert to the health of each child, known allergies, or special medical conditions.
- Under the supervision of the preschool teacher, all staff must be alert to the whereabouts of all children. Systems are in place for accounting for children at regular intervals, especially during periods of transition.
- All staff are to follow proper procedures for hand washing, using disinfectant, and following universal precautions to prevent infections.
- All staff are familiar with evacuation routes and procedures.
- All teaching staff complete "Occupational Exposure to Bloodborne Pathogens" annually.
- At least one staff member who has a certificate of satisfactory completion of pediatric first-aid training, including managing a blocked airway and providing rescue breathing for infants and children, is always present with each group of children. When a child in the group has a special health condition that might require CPR, one staff person who has successfully completed training in CPR is present in the program at all times. (QPPS 5.4)

Illness Policy and Exclusion of Sick Children

For the health and safety of all the children, it is mandatory that sick children not be brought to school. If your child has any of the following symptoms during the night, he or she will not be admitted the following morning for the safety of the other children.

- fever greater than 100 degrees F
- vomiting
- diarrhea
- pink eyes with drainage
- cough with congestion and excessive nasal discharge

The center's established policy for an ill child's return:

- Fever free for 24 hours
- Chicken pox: one week after onset (or when lesions are crusted)
- Strep: 24 hours after initial medication
- Vomiting/Diarrhea: 24 hours after last episode
- Conjunctivitis: 24 hours after initial medication or when without drainage

Upon arrival at school, each child is observed by teaching staff for signs of illness or injury that could affect the child's ability to participate comfortably in the daily activities. Children will be excluded when a child is not able to participate comfortably; if the illness requires more care than staff are able to provide without compromising the needs of the other children in the group; or if keeping the child at school poses an increased risk to the child or to other children or adults with whom the child will come in contact.

When a child develops signs of an illness during their day at preschool, parents, legal guardians, or other person authorized by the parent will be notified immediately to pick up the child. For this reason, please be sure that we have

current, accurate phone numbers for you, your authorized emergency contact person and your child's pediatrician. In the meantime, we will provide the child a place to rest until the parent, legal guardian or designated person arrives under the supervision of someone familiar with the child. If the child is suspected of having a contagious disease, then until she or he can be picked up, the child is located where new individuals will not be exposed.

Reporting Communicable Diseases QPPS 5.3

Staff and teachers provide information to families verbally and in writing about any unusual level or type of communicable disease to which their child was exposed, signs and symptoms of the disease, mode of transmission, period of communicability, and control measures that are being implemented at the program and that the families should implement at home. The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually, made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when outbreaks of communicable diseases occur.

Medication Policies and Procedures QPPS 5.8

Policy: The school will administer medication to children with written approval of the parent and an order from a health provider for a specific child. Because administration of medication in the school is a safety hazard, medication administration will be limited to situations where an agreement to give medicine outside preschool hours cannot be made. Whenever possible, the first dose of medication should be given at home to see if the child has any type of reaction.

Procedure: The school nurse coordinates and/or administers medication during school hours only if the parent or legal guardian has provided written consent and the medication is available in an original labeled prescription or manufacturer's container that is child-resistant. Any other person who would administer medication has specific training and a written performance evaluation, updated annually by a health professional on the practice of the five right practices of medication administration: (1) verifying that the right child receives the (2) right medication (3) in the right dose (4) at the right time (5) by the right method with documentation of each right each time the medication is given. Medication errors will be controlled by checking and recording these five right practices each time medication is given. Should a medication error occur, the Regional Poison Control Center and the child's parents will be contacted immediately. The incident will be documented in the child's record at the school.

For prescription medications, parents or legal guardians will provide the school with the medication in the original, child-resistant container that is labeled by a pharmacist with the child's name, the name and strength of the medication; the date the prescription was filled; the name of the health care provider who wrote the prescription; the medication's expiration date; and administration, storage, and disposal instructions.

For over-the-counter medications, parents or legal guardians will provide the medication in a child-resistant container. The medication will be labeled with the child's first and last names; specific, legible instructions for administration and storage supplied by the manufacturer; and the name of the health care provider who recommended the medication for the child.

Instructions for the dose, time, method to be used, and duration of administration will be provided to the teaching staff in writing (by a signed note or a prescription label) or dictated over the telephone by a physician or other person legally authorized to prescribe medication. This requirement applies both to prescription and over-the-counter medications.

Medications will be kept at the temperature recommended for that type of medication, in a sturdy, child-resistant container that is locked and prevents spillage.

Medication will not be used beyond the date of expiration on the container or beyond any expiration of the instructions provided by the physician or other person legally permitted to prescribe medication. Instructions which state that the medication may be used whenever needed will be renewed by the physician at least annually.

A medication log will be maintained by the school staff to record the instructions for giving the medication, consent obtained from the parent or legal guardian, amount, the time of administration, and the person who administered each dose of medication. Spills, reactions, and refusal to take medication will be noted on this log.

Cleaning and Sanitization QPPS 5.18

The facility will be maintained in a clean and sanitary condition. When a spill occurs, the area will be made inaccessible to children and the area will be cleaned immediately.

Toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion will be removed immediately and disinfected after they are cleaned with soap and water. This also applies to other surfaces in the classroom. Toys and surfaces will be disinfected using a non-toxic solution of one tablespoon household bleach to one quart of tap water made fresh daily. To disinfect, the surfaces will be sprayed until glossy. The bleach solution will be left on for at least 2 minutes before it is wiped off with a clean paper towel, or it may be allowed to air dry. Machine washable cloth toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion must be laundered before another child's use. Toys that cannot be cleaned and sanitized will not be used.

Staff will be trained in cleaning techniques, proper use of protective barriers such as gloves, proper handling and disposal of contaminated materials, and information required by the US Occupational Safety and Health Administration about the use of any chemical agents.

Routine cleaning will be supervised by the preschool teacher and will follow the Cleaning and Sanitation Frequency Table in Section III, page 47 of the QPPS manual. A checklist will be completed as indicated in the table.

Facility cleaning requiring potentially hazardous chemicals will be scheduled when children are not present to minimize exposure of the children. All cleaning products will be used as directed by the manufacturer's label. Non Toxic substances will be used whenever possible.

Hand Washing Practices QPPS 5.6

Frequent hand washing is key to preventing the spread of infectious diseases. Teachers teach children how to wash their hands effectively. Posters of children using proper hand washing procedures are placed by each sink. The program follows these practices regarding hand washing:

- Staff members and those children who are developmentally able to learn personal hygiene are taught hand-washing procedures and are periodically monitored.
- Hand washing is required by all staff, volunteers, and children when hand washing reduces the risk of transmission of infectious diseases to themselves and to others.
- Staff assist children with hand washing as needed to successfully complete the task

Children and adults wash their hands:

- upon arrival for the day;
- after diapering or using the toilet (use of wet wipes is acceptable for infants);
- after handling body fluids (e.g., blowing or wiping a nose, coughing on a hand, or any touching of mucus, blood or vomit);
- before meals and snacks, preparing or serving food, or handling any raw food that requires cooking (e.g., meat, eggs, poultry);
- after playing in water that that is shared by two or more people;
- after handling pets and other animals or any materials such as sand, dirt, or surfaces that might be contaminated by contact with animals.

Adults also wash their hands

- before and after feeding a child;
- before and after administering medication;
- after assisting a child with toileting; and
- after handling garbage or cleaning.

Proper hand-washing procedures are followed by adults and children and include:

- using liquid soap and running water;

- rubbing hands vigorously for at least 10 seconds, including back of hands, wrists, between fingers, under and around any jewelry, and under fingernails; rinsing well; drying hands with a paper towel, or a dryer; and avoiding touching the faucet with just-washed hands (e.g., by using a paper towel to turn off water).

Except when handling blood or body fluids that might contain blood (when wearing gloves is required), wearing gloves is an optional supplement, but not a substitute, for hand washing in any situation listed above.

- Staff must wear gloves when contamination with blood may occur.
- Staff do not use hand-washing sinks for bathing children or removing smeared fecal material.

In situations where sinks are used for both food preparation and other purposes, staff clean and sanitize the sinks before using them to prepare food.

First Aid Kit QPPS 9.12

A first aid kit is located in the preschool classroom next to the door. It is inaccessible to children, but readily available for adult use. It is fully equipped according to guidance from Healthy Child Care Iowa. Following each use of the First Aid kit, the contents will be inspected and missing or used items replaced immediately. The First Aid kit will be inspected monthly. The first aid kit is taken to the outdoor play areas as well as on field trips and outings away from the site.

Fire Safety QPPS 9.13

A fire extinguisher is installed in the preschool classroom with a tag indicating its annual service date. The fire alarm system is serviced annually. Smoke detectors, fire alarms, and carbon monoxide detectors are tested monthly.

Fire and Tornado drills will be held at regular intervals throughout the school year. The school is required to hold four drills of each type per year. Preschool will be conducting a fire drill monthly. Fire drills are conducted monthly and recorded on a log. The teacher will discuss the procedure that students are to follow. Emergency drills must be taken seriously. The following signals should be recognized:

Fire Drill – A long, continuous buzzer Tornado Drill – A bell will sound intermittently

Medical Emergencies and Notification of Accidents or Incidents QPPS 10.10

The North Kossuth Community School District has in place a “Crisis Management Procedures” that describes the following situations and procedures to follow:

- Emergency phone numbers
- Fire procedures
- Utility Failures (electric power failure, water line break, gas line break)
- Severe weather
- Bomb threats
- Physical Threats/Armed Intruder
- Evacuations
- Crisis Intervention Plan, Crisis Intervention Steps, and Media Procedures
- Accidental Injury or Illness procedures for life threatening and non-life threatening situations
- School crisis team members and a checklist to use
- List of CPR/First Aid experienced persons in each building

This booklet will be posted by the telephone and included in the first aid kit. The booklet will be reviewed by each staff member at the beginning of each school year and when changes are made to it

In the event that your child receives a minor, non-life threatening injury during their time at preschool, our teacher will assess the situation and apply first aid as needed. Minor cuts and scrapes will be treated with soap and water and bumps will be treated by applying ice to the injured area. Any incident or injuries will be documented on an “Injury and Illness” form and a copy will be given to the parent within 24 hours of the incident.

All staff will have immediate access to a device that allows them to summon help in an emergency. The telephone numbers of the Fire Department, Police Department, Hospital, and Poison Control will be posted by each phone with an

outside line. Emergency contact information for each child and staff member will be kept readily available. The list of emergency telephone numbers, and copies of emergency contact information and authorization for emergency transport will be taken along anytime children leave the facility in the care of facility staff.

Emergency phone numbers will be updated at least quarterly. Emergency phone numbers will be verified by calling the numbers to make sure a responsive, designated person is available.

Inclement Weather

We will follow the North Union Community School cancellations and delays. Please use your own discretion about each situation. If there is a late start on a Tuesday or Thursday 3 year old preschool is canceled.

The North Kossuth Community School District will utilize the service GovDelivery, along with other local media (radio and television), to announce notifications such as late starts and early dismissals due to weather conditions or other factors. Please follow the instructions below to sign up for new or continued notifications.

How to sign up for GovDelivery:

1. Go to the following web address: <https://public.govdelivery.com/accounts/IAEDU0333/subscriber/new>
2. Choose to subscribe via Email or SMS/Text Message from the "Subscription Type" pull-down menu. You may choose to enter a password to access/update this information in the future.
3. Enter the wireless number (SMS/Text Message) or email address you would like the alert(s) to go to. Note: You will need to subscribe multiple times for each phone number and/or email address you would like the alerts to be sent.

Please do not call the school to ask if there is an early dismissal. Once that decision is made, stations and channels need to be notified. Incoming calls tie up the lines making it impossible to call out. If there is going to be an early dismissal, please listen or check your Internet devices instead of calling the school.

Parents/Guardians should have a plan in place for their student(s) should school be dismissed early.

Protection From Hazards and Environmental Health QPPS 9.11

Program staff protect children and adults from hazards, including electrical shock, burns, or scalding, slipping, tripping, or falling. Floor coverings are secured to keep staff and children from tripping.

The preschool classroom building has been tested for lead, radon, radiation, asbestos, fiberglass, and other hazards that could impact children's health with documentation on file. Well water is tested monthly by the maintenance director. Custodial staff maintain the building's heating, cooling, and ventilation systems in compliance with national standards for facility use by children.

The program maintains facilities so they are free from harmful animals, insect pests, and poisonous plants. Pesticides and herbicides, if used, are applied according to the manufacturer's instructions when children are not at the facility and in a manner that prevents skin contact, inhalation, and other exposure to children. The program uses the techniques known as Integrated Pest Management (IPM) so that the least hazardous means are used to control pests and unwanted vegetation.

School Lock-Down Policy

Doors are locked after 8:30 am. If you need to pick up or drop off your child during school hours, you may pass through designated doors and check with the secretary.

Smoke Free Facility QPPS 9.15

In compliance with the Iowa Smokefree Air Act of 2008, the North Kossuth Community School District buildings and grounds are smoke free. A "No Smoking" sign meeting the law's requirements is posted at the entrance to the preschool classroom building to inform people that they are entering a non-smoking place. No smoking is allowed on the school grounds or within sight of any children.

Child Protection Policies QPPS 10.6, 10.7

The health and well being of every child in our care is of the utmost importance and the protection of children is our responsibility. An applicant or volunteer for temporary or permanent employment with the preschool program involves direct interaction with or the opportunity to interact and associate with children must execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

The program has written school board policy for reporting child abuse and neglect as well as procedures in place that comply with applicable federal, state, and local laws. The policy includes requirements for staff to report all suspected incidents of child abuse, neglect, or both by families, staff, volunteers, or others to the appropriate local agencies. Staff who report suspicions of child abuse or neglect where they work are immune from discharge, retaliation, or other disciplinary action for that reason alone unless it is proven that the report is malicious. All teaching staff complete "Mandatory Reporter: Child and Dependent Adult Abuse" at least every five years and within six months of employment.

The school district does not tolerate employees physically, or sexually abusing or harassing students. Students who are physically or sexually abused or harassed by an employee should notify their parents, legal guardians, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated Sandy Tigges at (515-272-4361). The alternate investigator is (Julie Runksmeier) and may be reached at (515-272-4361).

Substance Abuse QPPS 9.15

Persons under the influence of drugs or alcohol will not be permitted on the premises of the North Kossuth Community Schools. At no time will children be released to a person under the influence of alcohol or drugs.

Volunteers

Parents, friends, grandparents, and other adults are encouraged to take an active part in the educational process of the children. Please contact the teacher, the superintendent, or our school secretary if you would like to be a school volunteer. We have a volunteer job description that defines the role and responsibilities of a volunteer. For safety's sake, if a volunteer will be working with children, he/she will be expected to execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children. If a volunteer works more than 40 hours per month with children, he/she will also need to provide a current health assessment, not more than one year old.

VIII. Staff QPPS 6.1-6.6

General Information QPPS 10.11 and 10.12

The North Kossuth Community School District has written personnel policies that define the roles and responsibilities, qualifications, and specialized training required of staff and volunteer positions. The policies outline nondiscriminatory hiring procedures and policies for staff evaluation. Policies detail job descriptions for each position, including reporting relationships; salary scales with increments based on professional qualification, length of employment, and performance evaluation; benefits; and resignation, termination, and grievance procedures. Personnel policies provide for incentives based on participation in professional development opportunities. The policies are provided to each employee upon hiring.

Hiring procedures include completion of the following checks: criminal-record check, free from history of substantiated child abuse or neglect check, education credentials, verification of age, completion of high school or GED, personal references and a current health assessment

Health Assessment

The preschool program maintains current health information from documented health assessments for all paid preschool staff and for all volunteers who work more than 40 hours per month and have contact with children. A current health

assessment (not more than one-year-old) is received by the program before an employee starts work or before a volunteer has contact with children. The health assessment is updated every two years. Documented health assessments include:

- Capacities and limitations that may affect job performance
- Documentation by a licensed health professional of TB skin testing using the Mantoux method and showing the employee to be free from active TB disease. For those who have a positive TB skin test and who develop a persistent cough or unexpected fever, immediate assessment by a licensed physician is required. For those who have increased risk of TB according to the Centers for Disease Control (CDC), documentation is required annually by a licensed health professional showing that the employee is free from active TB disease.

Confidential personnel files, including applications with record of experience, transcripts of education, health-assessment records, documentation of ongoing professional development, and results of performance evaluation, are kept in a locked filing cabinet in the Principal's office.

Orientation QPPS 6.1, 6.2

Employees must know their role and duties. New preschool teaching staff will be required to participate in an initial orientation program that introduces them to fundamental aspects of the program operation including:

- Program philosophy, mission, and goals;
- Expectations for ethical conduct;
- Individual needs of children they will be teaching or caring for;
- Accepted guidance and classroom management techniques;
- Daily activities and routines of the program;
- Program curriculum;
- Child abuse and reporting procedures;
- Program policies and procedures;
- Iowa Quality Preschool Program Standards and Criteria;
- Regulatory requirements.

Follow-up training expands on the initial orientations.

The employee's immediate supervisor should provide the new employee with a review of the employee's responsibilities and duties. The superintendent will explain payroll procedures, employee benefit programs and accompanying forms to the employee. Regular employees ineligible for the school district's group health plan will be given information regarding where they can obtain health care or health care insurance.

Staffing Patterns and Schedule QPPS 10.4, 10.13, 2.6

The preschool program is in compliance with staff regulations and certification requirements. The program follows requirements for staffing for Iowa's Quality Preschool Program Standards of maintaining an adult/child ratio of at least 1:10 at all times. The program administrator will maintain lists of current substitutes for the preschool teacher in case of absence. Each preschool director will maintain a list of substitutes for teacher assistants. If one of the teaching staff needs to temporarily leave the classroom, the person will call the office to arrange for coverage in order to maintain the adult/child ratio. Staff are provided space and time away from children during the day. Should staff work directly with children for more than four hours, staff are provided breaks of at least 15 minutes in each four-hour period. In addition, staff may request temporary relief when they are unable to perform their duties

Staff Development Activities QPPS 2.6, 6.5, 6.6, 10.15

Personnel policies provide for incentives based on participation in professional development opportunities. All teaching staff continuously strengthen their leadership skills and relationships with others and work to improve the conditions of children and families within their programs, the local community, and beyond. Teaching staff are encouraged to participate in informal and formal ways in local, state, or regional public-awareness activities. They may join an early childhood group or organization, attend meetings, or share information with others both at and outside the program.

Teaching staff will be informed of professional development activities provided by Child Care Resource and Referral, the local Empowerment areas, and the area education agency. Staff are expected to attend all staff trainings and meetings throughout the year. Training will focus on early childhood topics relevant to the program and community.

Professionalism

Each staff member is a preschool professional and is expected to act as such. The following general guidelines for professionalism should be maintained at all times:

- Arrive on time and stay entire shift.
- Is not absent from work on a regular basis.
- Dress appropriately for interaction with children.
- Take directions, suggestions and criticisms, and follow through to improve performance.
- Respect confidential information regarding children, families, and co-workers.
- Display a positive attitude toward the program, children, families and co-workers.
- Attend staff meetings.
- Completes required training in a timely fashion.

Evaluation and Professional Growth Plan QPPS 6.5, 6.6, 10.14

All staff are evaluated at least annually by an appropriate supervisor. Staff also evaluate and improve their own performance based on ongoing reflections and feedback from supervisors, peers, and families. From this, they develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.

First Aid/CPR Certification

Employees will be required to complete the necessary First Aid and CPR certification requirements as outlined by the QPPS.

IX. Community Relationships (IQPPS 8.1-8.6)

Linking with the Community

- [Child & Family Support Services](#)
- [Family Support Network](#)
- [Iowa Child Care Resource & Referral](#)
- [Early Childcare Iowa](#)

Program staff maintains a current list of child and family support services available in the community based on the pattern of needs they observe among families and based on what families request (eg. Health, mental health, oral health, nutrition, child welfare, parenting programs, early intervention /special education screening and assessment services, and basic needs such as housing and child care subsidies). We share the list with families and assist them in locating, contacting, and using community resources that support children and families' wellbeing and development. **QPPS 8.1**

Staff also develop partnerships and professional relationships with agencies, consultants, and organizations in the community to further the program's capacity to meet the needs and interests of the children and families that we serve. **QPPS 8.2**

Program staff is familiar with family support services and specialized consultants who are able to provide culturally and linguistically appropriate services. They use this knowledge to suggest and guide families to these services as appropriate. Program staff encourages continuity of services for children by communicating with other agencies and programs to achieve mutually desired outcomes for children and to guide collaborative work. Program staff identifies and establishes relationships with specialized consultants who can assist all children and families' full participation in the program. This assistance includes support for children with disabilities, behavioral challenges or other special needs. **QPPS 8.3**

Program staff advocate for the program and its families by creating awareness of the program's needs among community councils, service agencies, and local governmental entities. Program staff includes information gathered from

stakeholders in planning for continuous improvement, building stakeholder involvement in the program, and broadening community support for the program.

Accessing Community Resources

Program staff uses their knowledge of the community and the families it serves as an integral part of the curriculum and children's learning experiences. **QPPS 8.4**

We connect with and use the community's urban, suburban, rural and tribal cultural resources. **QPPS 8.5**

Program staff informs families about community events sponsored by local organizations. We invite members of the performing and visual arts community, such as musical performers, coordinators of traveling museum exhibits, local artists and community residents, to share their interests and talents with the children. The program engages with other community organizations and groups to cosponsor or participate in cultural events to enrich the experience of children and families in the program. **QPPS 8.6**

Acting as a Citizen in the Neighborhood and the Early Childhood Community

Program staff is encouraged to participate in local, state or national early childhood education organizations by joining and attending meetings and conferences. Program staff is also encouraged to participate regularly in local or regional public-awareness activities related to early care and education. The program encourages staff to participate in joint and collaborative training activities or events with neighboring early childhood programs and other community service agencies. The program encourages staff and families to work together to participate in and support community improvement or advocacy projects. Program leadership builds 72 mutual relationships and communicates regularly with close neighbors, informing them about the program, seeking out their perspectives, involving them in the program as appropriate, and cooperating with them on neighborhood interests and needs. Program staff are encouraged and given the opportunity to participate in community or statewide interagency councils or service integration efforts. Program leadership is knowledgeable about how policy changes at local, state, tribal and national levels affect the services and resources available for children and their families.

PRESCHOOL INFORMATION:

(To be filled out if your child is entering preschool)

Other children in the home (Name and birth date):

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____

Physical Regime:

Does your child have any unusual eating problems or food dislikes? Explain

What is your child's usual bedtime _____ usual waking time _____

Is your child potty trained _____ Partially potty trained _____

Play and Socially:

How does he/she get along with children? _____

Are his/her playmates girls? ___ boys? ___ younger ___ older ___ none ___

What is the usual size of neighborhood play group? _____

Previous group experience: ___nursery school; ___play group; ___Sunday school

Personality and Emotional Development:

Do you regard your child as affectionate? ___ To whom? _____

Does he/she accept new people easily? _____

What are the child's fears? _____

Is he/she usually happy? _____

What nervous habits does he/she have? _____

When does he/she show them? _____

When do you find it necessary to discipline your child, which parent usually does this and how?

Give any further information which you believe will be helpful to us in understanding your child. (In case of handicap – describe) _____

Do you consider your child to be ___right-handed; ___left-handed; ___not sure

To Be Completed by Physician
**TO BE COMPLETED IF YOU ARE NEW TO THE SCHOOL. ALL
 PRESCHOOL STUDENTS NEED THIS COMPLETED PRIOR TO THE
 START OF SCHOOL.**
